the aggregate to \$3,772,07.08, there would be an increase in the interest account and not the loss of the entire amount of receipts from that source, which the Auditor estimates at \$10,000 (Sen. Doc. 4—page 6.) The Senator also estimates a loss on telephone companies of \$12,000, and from initial fees on charters of \$10,000, making a total estimated loss from these three items of \$22,000, but as he suggests no reason why these losses should occur, we prefer to abide by the estimates of the Auditor on these subjects, and he only estimates a loss from one of them—telegraph and telephone companies—which he places at \$812,80. Another reliable and constant source of revenue is omitted entirely by both Senator Wickham and the Auditor. Reference is made to receipts from contingent sources, which amounted to \$103,806 in 1002. See Auditor's report, Table No. 1.

LIQUOR DEALERS FOR/FLAT LICENSE

They Wish Every Saloonkeeper to Pay \$150 per Annum.

Having appeared before the Council Finance Committee and been given a fair and an impartial hearing, the liquor men of Richmond feel that they have accomplished much good for their cause, and that a flat license basis will be the eventual result, no dealer in spirituous or mail liquors in the city being rated more than \$160 per annum. Such a move is in accord with the views of the Liquor Dealers' Association and will meet with the approval of a large majority of the

At a special meeting of the association last week a campaign fund of \$460 was subscribed within five minutes. It is expected that this sum will have been increased to over \$1.000 before to-night, as a number of collectors have been out since the session.

The dealers contend that a flat \$100 or \$160 lineense all over the city would increase the revenue from the liquor dealers alone many thousands of dollars in coties of a year, for numbers who now pay only \$50 for the right to conduct that places would pay double this anount, while as many more would be classed in the same category as now.
